Experience

Oct 2021 - Apr 2024 | Bose Corporation - Tongeren
Digital Content Manager (via ARHS Technology)

- Created and optimized localized digital experiences for 30+ countries using Adobe Experience Manager (AEM) and Contentstack.
- Collaborated with product owners, UX designers, and copywriters to deliver engaging, on-brand web content and support global product launches.
- Supported the migration of all web content from Adobe to Salesforce, maintaining accuracy and ensuring a seamless transition.
- Managed product data in Hybris Backoffice and Salsify (PIM) to ensure consistent and up-to-date product information.
- Worked in global agile teams across multiple time zones, contributing to smooth sprint delivery and cross-functional communication.

Aug - Oct 2021 | Pweb Solutions - Meerhout
Frontend Developer / Web Designer

- Developed and launched multiple client-facing auction websites, enhancing user engagement and client satisfaction.
- Implemented responsive design practices to ensure seamless functionality across devices and improve mobile usability.
- Worked on solutions involving data integration to support website functionality.

May - Jun 2021 | Pweb Solutions - Meerhout
Frontend Developer / Web Designer Intern

- Assisted in developing and maintaining websites for multiple clients using **HTML**, **CSS**, and **JavaScript**.
- Improved site performance and usability by optimizing layouts and streamlining visuals.
